BUILDING	ROOM NO.	
REMARKS: This is best I can seem to cook up on basis of information at hand. It is probably rather too extensive in scope considering the time Branches will have to complete the job, but I thought I'd put down everything that seemed pertinent with the hope that some of it will be cut. Was also thinking of briefest possible statement under each heading.		
GSI <i>OK, but keep it brief</i> <i>AD-12</i>
